## (Remote) Amazon Data Entry Jobs from Home – No Experience

### Description

We are looking for a focused **Virtual Inventory Support Specialist** to manage and update product data for our Amazon storefront. This is a **no-experience-required** entry-level position perfect for those seeking a **flexible, part-time** schedule. You will be the backbone of our digital shelf, ensuring every SKU, price point, and product detail is 100% accurate.

### Primary Responsibilities

- **Catalog Synchronization:** Input and sync product technical specifications from manufacturer sheets into the Amazon Seller Central database.
- **SKU Management:** Create and organize unique identifiers (SKUs) for new inventory arrivals.
- **Visual Data Pairing:** Cross-reference high-resolution product images with their corresponding listings to ensure brand consistency.
- **Price & Promo Updates:** Adjust seasonal pricing and “Lightning Deal” data during peak shopping windows.
- **Discrepancy Auditing:** Run weekly checks to find and fix “ghost listings” or broken data fields.

### Qualifications & Gear

- **Education:** High School Diploma or GED.
- **Technical Savvy:** Comfortable navigating web-based dashboards and basic **Cloud Spreadsheets** (Google Sheets/Airtable).
- **Typing Proficiency:** Ability to maintain a steady pace with high attention to detail (accuracy is more important than raw speed).
- **Reliability:** You must have a stable internet connection and a personal computer (Chrome or Safari preferred).
- **Self-Starter:** Since this is **100% remote**, you should be comfortable working without a manager looking over your shoulder.

### Why Join Our Team?

#### Hiring organization

Inventory Support

#### Employment Type

Full-time

#### Job Location

Remote work from: US

#### Working Hours

8

#### Base Salary

USD 20 - USD 30

#### Date posted

April 3, 2026

#### Valid through

30.12.2026

- **Fully Asynchronous:** Work when you are most productive—morning, noon, or night.
- **No Experience Necessary:** We provide a 3-day digital onboarding “bootcamp” to teach you the software.
- **Steady Side Income:** Perfect for students, stay-at-home parents, or anyone looking for a reliable remote side-gig.
- **Growth Path:** Top performers often move into **Account Management** or **Digital Marketing** roles.
