Virtual Assistant at American Express (Remote Jobs)

Description

Job Title: Senior Digital Developer – OnBrand (In-House Creative Agency)

Location: Remote / Hybrid (New York, NY / Phoenix, AZ / Sunrise, FL)

Job ID: 26-GABM-9921

Organization: Global Advertising and Brand Management (GABM)

About Team Amex

“We’ve Got Your Back.” At American Express, we believe that with the right backing, people and businesses have the power to progress in incredible ways. When you join **Team Amex**, you become part of a global community with an unwavering commitment to back our customers, our communities, and each other. Here, creativity and inspired storytelling combine with powerful data to create genuine human connections.

The Role: OnBrand Creative Agency

OnBrand is American Express’ award-winning In-House Creative Agency, and we are on a journey of rapid expansion. Our mission is to be the creative partner-of-choice for our Business Units, driving results through industry-defining creative excellence.

As a **Senior Developer**, you will report to the OnBrand Production Director. You will be a key architect in building seamless digital customer experiences, working across channels to turn forward-thinking ideas into functional, high-performance realities.

Key Responsibilities

- **Technical Execution:** Lead and execute high-quality development for multiple parallel projects, ensuring clean, maintainable, and scalable code.
- **Front-End Excellence:** Architect digital experiences and user interfaces using a modern stack of HTML5, CSS3, and JavaScript.
- **Creative Collaboration:** Partner closely with UX/UI designers, copywriters, and art directors to bridge the gap between creative vision and technical feasibility.
- **Mentorship & Leadership:** Provide proactive coaching and technical oversight for junior/mid-level developers, ensuring code quality and professional growth.

Hiring organization

Amex

Employment Type

Full-time

Job Location

Remote work from: US

Working Hours

8

Base Salary

USD 20 - USD 30

Date posted

April 3, 2026

Valid through

30.12.2026

- **Standards & Accessibility:** Champion industry best practices for web accessibility (WCAG), responsive design, and performance optimization from the ideation phase.
- **QA & Optimization:** Collaborate with QA teams to troubleshoot defects, identify patterns in bugs, and optimize the overall development lifecycle.

Required Qualifications

- **Experience:** 5+ years of professional web development experience, preferably within a creative agency or a high-growth corporate environment.
- **The Tech Stack:** * Mastery of **JavaScript (ES6+)**, **HTML5**, and **CSS/SCSS**.
 - Deep experience with modern frameworks (e.g., **React**, **Vue**, or **Angular**).
 - Familiarity with version control systems (**Git**).
- **UI/UX Acumen:** A strong “design eye” with the ability to translate Figma or Adobe XD files into pixel-perfect digital experiences.
- **Soft Skills:** Proven ability to lead a project team, manage stakeholder expectations, and communicate technical concepts to non-technical partners.
- **Accessibility:** Solid understanding of ADA/WCAG compliance and mobile-first responsive development.

What We Offer

- **Growth:** A unique and meaningful career journey tailored to your personal goals.
- **Support:** Flexibility and benefits that back you personally and professionally.
- **Inclusion:** An environment where everyone is seen, heard, and feels like they belong.
- **Recognition:** Competitive salary, performance bonuses, and the opportunity to share in the company’s global success.
